

# Confidence. Compliance. Consistency.

## CenPOS + Microsoft AX Integrations.

### INTEGRATED APPLICATIONS

# Microsoft AX

Your clients come to you for pragmatic and powerful ERP solutions. They want to focus on doing business, and that can't happen if they're unsure of compliance or unsteady about the security of client data. However, they also want to operate wisely, making sure that the cost/benefit equation adds up in their favor.

Walk in with the answer – a CenPOS payment processing solution fully integrated with Microsoft AX. Our single-source, cloud-based solutions ensure full compliance with every transaction, while providing an unmatched level of data integrity throughout the payment process.

They get the right solution. You forge a solid relationship that will bring continued opportunities to augment sales from software licensing, ongoing upgrades, and additional services. The industry's finest payment solution is a major win for everyone.

*"We have enjoyed the seamless transition to CenPOS and settle all qualifying Level III transactions without problems through our Infor Distribution SX.e and Storefront since August 2012. Enjoying the financial benefits associated with this solution has saved us about 18% on a monthly basis. The level of professionalism, service, and knowledge from the CenPOS staff is like nothing I have ever experienced from other companies in this industry."*

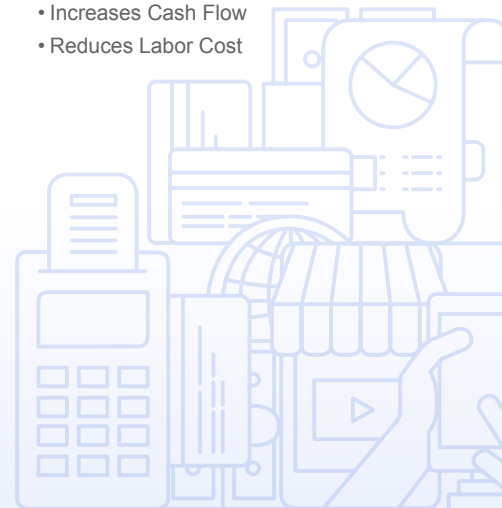

– Don Green, Choctaw-Kaul

Microsoft  
Dynamics 365

### This integration:

- Saves Time
- Reduces Human Error
- Increases Cash Flow
- Reduces Labor Cost

# CenPOS + Microsoft AX

## Seamless Integration That's Pure Inspiration

### The Solution

CenPOS provides the channel partner with feature rich software payment modules that are fully integrated with Microsoft AX (no additional development needed). The solution includes POS with EMV supporting all tender types i.e. cash, checks, ACH and credit cards, and Electronic Bill Presentment and Payment (EBPP) with consumer authentication. The CenPOS software license (modules) is provided to the channel partner royalty free. Our team of integration professionals is assigned by CenPOS to channel partners to ensure speed, efficiency and accuracy of any special and/or additional customization needed.

### Unmatched Security and Compliance

CenPOS is a Level 1 PCI DSS Validated Service Provider. Sensitive card data is never transmitted or stored within the ERP. Avoid costly network segmentation mandated by PCI with CenPOS's validated Point-to-Point Encryption technology. CenPOS does all the heavy lifting when it comes to the card brands compliance, no need for backward compatibility, new or additional software development.

### All tender types fully integrated

Visa, MasterCard, Discover, American Express, P-Cards, ACH, Cash, E-check and Alternative Payments

### CenPOS Software modules

CenPOS offers channel partners new revenue streams by providing a royalty free software license to all of its integrated software modules. These software modules can be sold by the channel partner as an all inclusive or a la carte. The integrated modules include:

- POS with EMV enabled
- Mobility with EMV
- P2P E Validation
- Electronic Bill Presentment and Payment
- Tokenization
- Consumer Electronic Wallet supporting all tender types
- Electronic Signature Capture
- Integrated Shopping Carts
- Enhanced fraud and risk mitigation tools

### Dedicated resources

CenPOS employs a dedicated team of technology and payment professionals that understand the business and regulatory challenges facing them. The CenPOS advantage provides offers:

### Integrators Paradise
